HISTORICAL STATEMENT

The beginnings of West Virginia Wesleyan College are traced beck to the efforts of the Methodists to establish schools of higher learning in what is now West Virginia. Prior to the organization of the Methodist Episcopal Church, South, and before West Virginia separated from Virginia, at least three academies were established. One of these later developed into one of our state institutions; the other two disappeared. The one of longest duration was known as Northwestern Academy, located at Clarksburg. The last official mention of this school is recorded in 1885 minutes of the West Virginia Conference. But like the expression, "The King is dead,—long live the King," the Methodists immediately planned another school. In 1887 the present site at Buckhannon was purchased, and in 1890 the doors of the West Virginia Conference Seminary were opened. As a secondary institution the school functioned until 1904 when it was raised to college standing, and the name changed to West Virginia Wesleyan College. The first college class was graduated in 1905. Three years later the Seminary was discontinued, and eventually all secondary work was eliminated.

West Virginia Wesleyan grants the degrees of Bachelor of Arts and Bachelor of Science. The College is under the direction of the Methodist Episcopal Church, and meets the standards set up by the University Senate of that body. West Virginia Wesleyan insists upon the highest intellectual standards. Leading universities welcome its graduates in their post-graduate courses and give them full credit for work done here.

AIMS OF THE COLLEGE

In common with all church related colleges, West Virginia Wesleyan College, from its beginning, has

had a definite aim centering in the development of Christian character. The first expression on the part of the Methodists of West Virginia, concerning the reason for the founding of a school of higher learning within the bounds of the Conference, is found in the Conference Journal of 1885. At that Conference, by a resolution passed, all effort for control of the Northwestern Virginia Academy, which was located at Clarksburg, was to be discontinued. It is significant, however, that at the same Conference, in the report of the committee on education, we find this statement:

> "We have not done our duty to our young people in providing for their educational wants. We hope the day is not far distant when we will have all the advantages enjoyed by other conferences of our church, as initiatory steps are being taken with this object in view."

Then in 1887 the Conference Committee on Education, in its report, uses these lines:

> "The nobler instincts of a man are not more conspicuous than when he struggles to give his children the legacy of a first-class education. He does not care so much to leave his children money as to have them well-trained in mental culture."

The West Virginia Conference Seminary was opened for students in 1890. The first publicity leaflet printed and mailed out to prospective students was prepared by President B. W. Hutchinson, and among other items contained this statement of the aim of the institution:

> "The design of the Seminary is to furnish to students of both sexes opportunities for a thorough education under Christian influences. It will be the aim not simply to make

scholars, but to develop character; to promote the highest Christian culture and the truest refinement of thought and conduct."

A few years ago at the request of a former administration, Dr. L. H. Chrisman, who has held the chair of English Literature since 1919, wrote the following paragraph expressing the aim of Wesleyan:

"West Virginia Wesleyan College exists fundamentally to fulfill the functions of a liberal arts college under Christian auspices. It believes that a student should be brought into contact with "the best that has been thought and said." It holds, however, the view that education is not simply acquiring knowledge but that the liberally educated man is so trained that he is efficient intellectually. Wesleyan, as a denominational college, takes the position that it should do its utmost to instill devotion to high principles of thought and conduct and that it should make every possible effort to develop sterling Christian character on the part of the men and women who pass through its portals."

The center of effort in education is the student. For him all types of schools and colleges are built, equipped, and maintained; for him teachers are trained and employed; libraries and laboratories with every possible device for research are made available, his curricula outlined. From its inception, West Virginia Wesleyan College has kept the student in the center of consideration and plans. There has been no change in the fundamental objective of the institution since its establishment.

It has been, and is now, the purpose of West Virginia Wesleyan College, to provide for young men and women, educational opportunities which shall be alike adequate for their professional and business careers, and for the achievement of complete and well-poised

characters. Because we believe this objective impossible of realization without the inspiration and background of Christian ideals, the institution has further set itself to the task of providing wholesome surroundings for both mental and spiritual development.

LOCATION

Buckhannon, the seat of West Virginia Wesleyan, is located near the geographical center of West Virginia. It is readily accessible from all parts of the state. Several branches of the Baltimore & Ohio Railroad pass through the city, but in recent years bus transportation has been more frequently used. Bus lines connect Buckhannon with all parts of the state. Students coming by rail, either from the east or west, should come to Clarksburg, twenty-seven miles from Buckhannon, from which point bus transportation is available. The Wesleyan campus is beautifully situated upon an elevation within the Buckhannon city limits. It consists of forty-seven acres and slopes gently from the site of the Administration Building. On it there is a grove of noble oaks from "the forest primeval." Many other beautiful trees were planted by the founders of the institution. The beauty of the campus can never be forgotten by those who have seen it.

BUILDINGS

The buildings of the college are six in number, five of which, the Administration Building, Haymond Science Hall, the Gymnasium, the Music Hall, and the Agnes Howard Hall for women, are located on the campus. The Boys' Dormintory is located on Florida Street, about three squares from the campus.

THE ADMINISTRATION BUILDING is a three-story brick structure and replaces what was known in the earlier days as the Seminary Building, which was destroyed by fire in 1905. It stands almost in the center of the campus on the crest of a knoll. All of the offices, the library, the Atkinson Chapel and a number of recitation rooms are in this building.

HAYMOND SCIENCE HALL is a beautiful and well-built structure and houses the laboratories of the science department. This is one of the best equipped

science buildings of any college the size of West Virginia Wesleyan.

THE GYMNASIUM is a much larger building than one would expect to find on the campus of West Virginia Wesleyan College, due to the fact that the West Virginia High School basketball tournament has been held here since its beginning in 1914. The college authorities enlarged the building in order to accommodate this group of high school students. In addition to the gym floor for basketball and other intramural sports, the building is equipped with swimming pool and hand ball court, lockers and showers for both men and women, and recitation rooms for the physical education department.

THE MUSIC HALL, the smallest of the buildings on the campus, is a three-story brick structure with studios for the instructors and practice rooms for students in piano, pipe organ, and orchestral instruments.

THE AGNES HOWARD HALL is a four-story brick structure, providing rooms for 150 young women. In recognition of a substantial gift made by Mr. and Mrs. Clarence D. Howard as a memorial to their daughter, Agnes, this building, which was her home in her student days in 1916, was henceforth called Agnes Howard Hall. This gift provided for the original building.

An addition, completed in January 1929, more than doubled the rooming capacity of the original building and completely modernized the structure. The ground floor is occupied by a spacious dining hall, modern kitchen, and store rooms. In addition to three small parlors, there is a large drawing room which is magnificently furnished, and a recreation room with a radio, piano, and games. This room is the center of all social and formal activities of the girls. A splendid room in the building is provided for the use of sorority and non-sorority groups.

The Agnes Howard Hall is the center of the college life for young women. Here is provided a home for the students who reside outside of Buckhannon under the immediate care and counsel of the Dean of Women

and her assistants. Every provision is made for the happiness and welfare of the girls in this hall. A student organization at the Hall has developed a large measure of self-government.

All young women not residents of this city are required to live at the Hall. Exceptions to this rule may be made when the student has relatives living in Buckhannon and desires to live with them; also when it is necessary for the student to board and room herself; and when all the rooms in the Hall are taken. Parents and young women are asked to note very carefully this requirement. No one is to make arrangements for rooming elsewhere without the approval of the Dean of Women. Permits from parents to attend dances or visit out of town should be presented by the new students to the Dean of Women on entering college.

All rooms in the Hall are furnished with the exception of sheets, pillow cases, comforts and blankets for the beds, rugs for the floor, and curtains for the windows. Students should bring the following articles: umbrella, dressing gown, bath towels, bedroom slippers, shoe bags, two laundry bags, hot-water bottle, raincoat, overshoes, thick walking shoes, and napkin ring with the first and last names. Trunks should be marked with full name.

Charges for room and board are due and payable as indicated under "Fees and Expenses."

DORMITORY FOR BOYS. This dormitory provides a home for boys. All freshmen living outside Buckhannon are required to room and board here unless special arrangements are made through the Dean of the College to the contrary. Reservations should be made early by depositing five dollars as a guarantee with the Treasurer of the College. This dormitory is supervised by a member of the faculty living in the building. Here boys will have helpful supervision during their first year in college. The building is a four-story brick structure with steam heat, shower baths, electric lights and every other convenience.

Students who occupy rooms in the dormitory are re-

quired to furnish towels, rugs, and linen and blankets for beds.

Charges for room and board at the Boys' Dormitory are due and payable as indicated under "Fees and Expenses."

RELIGIOUS LIFE

While the College was founded by the Methodist Episcopal Church and has received its principal support from that denomination, its non-sectarian spirit is emphasized by the composition of its board of trustees and faculty. Students of all denominations and those without church affiliations are equally welcomed and have equal privileges. Several denominations are represented in the student body. The College is positively Christian, but non-sectarian; its charter places no denominational tests whatsoever on its officers, members of the faculty, or students.

The students and the faculty attend the Chapel service three days per week. This service usually consists of singing, prayer, and a short address. On Sundays each one is expected to attend the church of his preference.

Recognizing that the foundation and inspiration of the noblest character is Jesus Christ, the quiet but constant influence of the College tends to lead the students to a life of definite allegiance and loyalty to Him. During the year, special meetings are held for the purpose of stimulating student interest in religious thought and life. These meetings treat the ploblems of the students from a sane, practical standpoint, endeavoring to lay emphasis on the essential Christian spiritual values.

Many of the students themselves are active Christian workers, and the religious life of the school finds expression in the activities of the Christian Associations and the Sunday Schools and Churches of the city. The College has a standing committee on Religious Life, composed of local citizens, faculty and students.

SOCIAL LIFE

Wesleyan is a co-educational institution. The sanest and most effective social development of the young women and young men is promoted during their college days together.

Wesleyan students are from the best homes. At social gatherings, and public athletic events the students mingle freely. The presence of members of the faculty is expected and acceptable to these events. The parlors of the Ladies' Hall are available one evening in the week for the young men making social calls.

Off the campus three fraternity houses afford centers of fellowship for certain groups. A number of organizations seek to promote interest along literary, scientific, philosophic, and musical lines. Under the direction of a faculty member, an intra-mural sport program for men and women is usually planned. So far as possible, all students are expected to participate in some athletic sport.

The College recognizes its responsibility to assist in providing a helpful social life. The faculty supervises a number of programs throughout the year intended to bring all faculty members and students together, and thus offer opportunity for acquaintance. The College does not sponsor dancing either on or off the campus.

FUTURE PROGRAM OF THE COLLEGE

Any institution which is satisfied with its accomplishments has ceased to advance. By that token West Virginia Wesleyan College must move forward. Her many friends are justly proud of her progress covering the short period of almost half a century. In physical property, the holdings have grown from forty acres of land and one building in 1890 to fifty acres, five buildings, one of which replaced the first one destroyed by fire, a central heating plant, and off the campus, a dormitory for freshman men, and a residence for the President. The total property value approximates $700,000 and could not be duplicated today for one million. The endowment has grown to half a million, a very small amount of which is unproductive.

During the existnce of this institution, covering both the seminary and the college years, we have given degrees and diplomas to 2,244, and our files indicate that more than 7000 other students have received academic credits. One-third of the members of the West Virginia Annual Conference have received their training at this institution. A large number of Wesleyan graduates are teachers in the schools of our state. In all parts of West Virginia and beyond our borders, West Virginia Wesleyan men and women are found who are giving the finest account of themselves as home builders, as professional and business men and women, as leaders and supporters of our churches, and as substantial citizens of their respective communities.

The College will continue to maintain her high standards of instruction, and her endeavors to serve the best scholastic interests of her students. Our courses will be strengthened, giving due consideration to the demands of the men and women who come here for training. Our Summer School has proved valuable to many and is growing each year. An increasing

number of public school teachers and other professional men and women are taking advantage of our extension course.

We seek to cooperate with all the educational forces of the state, and thereby increase our service to the general public.

The College has not reached the limit of its needs. A library building would add much to the efficiency of our work. We have an abundance of ground, and such a building would enhance the beauty of the campus. The College would, with less difficulty, meet its financial obligations if we had a larger endowment. In the very near future at least five hundred thousand dollars more should be added.

Friends of the College can serve the institution by securing gifts to endowment, for the erection of buildings, for scholarships, for loan funds, and for books for the library.

Scholarships are especially valuable as they help to increase enrollment of high class students. A full scholarship is $150 per year, and requires a gift of $2,500.

Another good way to help is by the annuity plan. According to this plan, the donor transfers money to the College, and the Trustees give him in return an annuity bond legally executed that yields a liberal per cent income as long as he lives. At his death the interest ceases and the money remains with the College.

The advantages of this plan to the donor are: (a) The donor pays no taxes upon the money; (b) there are no fees or allowances paid to the executor or administrator; (c) the donor is free from all care of anxiety about the money; (d) the donor is enabled to become the executor of his own estate during the lifetime. The property is absolutely safe the annuity bond being secured by all the property and endowments of the College.

A third way is by will or bequest. The following form should be used.

(a) I give and bequeath to the Board of Trustees of the West Virginia Wesleyan College, a corporation

organized under the laws of West Virginia, and located at Buckhannon, West Virginia, its successors and assigns forever, the following land and premises, that is to say: (Here describe the property) ; or

(b) I give and bequeath to the Board of Trustees of the West Virginia Wesleyan College, a Corporation organized under the laws of West Virginia, and located at Buckhannon, West Virginia, the sum of $..... to be paid by my executor, or administrator, out of my estate within.....months after my decease, to be used by the Board of Trustees of said College in such manner as they deem best. (Or name some particular purpose).

Persons desiring to leave bequests to the College would do well to notify the College authorities and learn what are the specific needs, so that their fund may be applied in the exact way and according to their wishes.

Investments in this cause will work perpetually for God in the development of noble Christian leadership. Members of the Methodist Episcopal church and other friends of Christian learning who wish to share in any way in the advantages of Wesleyan College are invited to correspond with the President of the College.

ADMISSION

Students may be admitted to West Virginia Wesleyan College by certificate or by examination. Evidence of good character must be submitted with the application for admission. Application forms may be secured by directing a request to the office of the Dean.

CERTIFICATION

In order to be admitted to college standing a candidate must have completed a minimum of fifteen units of preparatory work. A subject carried for a period of thirty-six weeks, recitations not less than forty-five minutes and meeting at least four times a week counts as one unit of credit.

Graduates of approved high schools of West Virginia are admitted without examination to full freshman standing, but applicant must present a certificate signed by the principal of the high school from which he graduated. The certificate must show the studies that have been pursued, the time employed, and the grades obtained. This statement should be filled out by the high school princpial and forwarded by him to the office of the Dean so that it may be in the possession of the College before the time of registration.

EXAMINATION

Students who for any reason are unable to present satisfactory certificates of scholarship, may be admitted by examination. A detailed statement of the requirements for admission in this manner will be sent to those who apply to the Dean. These examinations are given on the opening day of the semester. Arrangements should be made with the Dean in advance. No charge is made for such examinations if taken on the day appointed.

ADMISSION WITH ADVANCE STANDING

A student presenting credit from another institution of recognized rank may be given advanced standing without examination. A complete transcript of the work certified by the proper authority, taken at the college last attended, must be presented to the Dean on or before the date of enrollment. Besides the statement of the work of collegiate grade the transcript must include a copy of the preparatory courses accepted by the institution issuing this transfer of credit.

Evidence of honorable dismissal from the school last attended must be furnished. Any student who has endangered his collegiate standing either on account of low scholarship or irregular conduct cannot be enrolled unless he is recommended by the institution from which the transfer is to be made.

Upon proper application a student may be admitted to an examination for advanced standing. No fee is charged. Due arrangement with the Dean must be made in advance of the date on which the examination is to be given. If satisfactory evidence is afforded that the student has a reasonable knowledge of the subject, credit will be allowed.

Note: The following regulations should be carefully observed.

1. All claims for credit for work previously done must be adjusted at the time of the student's matriculation.
2. Public school diplomas and teachers' certificates will not be accepted as entrance credit.
3. Testimonials of good moral character are expected of all who apply for admission.
4. Students may be required to file health certificates with applications for enrollment.

DEFICIENCIES

Language

Entrance credit will not be given for less than two units in a foreign language. Foreign language is not required for entrance. A student entering without credit in this subject may complete the college requirements as a part of his curriculum for college credit.

Lack of Preparatory Work

If in any case a student is admitted with less than fifteen units of preparatory work, it will be required that he complete these requirements in a secondary school, by correspondence in a school of recognized standing, by special examination, or his college credit will be counted to the extent of satisfying this deficiency.

SPECIAL STUDENTS

A person who is not a candidate for a degree may be admitted as a special student. College credit is allowed for special work if the student can satisfy the entrance requirements.

Any one of mature years, who cannot present the full requirements for entrance, may enroll by securing permission of the Committee of College Standing. Until he has finished the entrance requirements he will be classified as a special student. Any student who is deficient in entrance work cannot be ranked as having regular standing.

REGISTRATION

Time of Registration

Freshmen are required to register during the Freshman Week, September 14-17, 1935. All other students will register on Tuesday, September 17. Excepting in

cases of compulsory delay, late registration is discouraged. Students who enroll late may be required to reduce the number of hours in their schedule.

Study Load

The number of hours one is advised to carry is seventeen. Eighteen may be taken by those who have established a good record, but those whose records are below average should restrict their load of academic work to less than seventeen hours. It is also advised that students who are working in order to earn a part of their expenses while in college use careful discretion in the selection of their study load. It is better to take more than four years to complete the college course and maintain a high record than to take less time and make an irregular or poor record.

Changes in Registration

Changes in registration are discouraged. The course of studies should be made out at first with extreme care. But if a change is necessary the student must secure the approval of the instructor concerned and the Dean, and present a statement of the change to the Registrar in order that his enrollment will be regular.

CLASS REGULATIONS

ENROLLMENT

A student is not regularly enrolled in a course until his application is endorsed by the registration officer and treasurer. All enrollments are for one semester.

WITHDRAWAL

When it becomes necessary for a student to withdraw from a class, he should see the Dean who will ascertain the reason for this request. If the student is failing, and his request is approved he is given a rating of "WF" which signifies withdrew failing. If he is not failing, his record is "WP" withdrew passing. One who discontinues a course without permission is charged with a failure.

EXAMINATIONS AND REPORTS

The success of a student depends very much on the start that he makes. Therefore, at the conclusion of the first six weeks of the first semester of each year a test is given for the purpose of ascertaining whether or not the students are making satisfactory progress in their studies. Special attention is given to those who indicate a probability of failure.

Two mid-semester tests are given each year. The results of these tests are not placed on the permanent records but are used for the purpose of determining the true standing of the student in his classes. The parents of those who fail to make passing grades are notified of this fact and they are urged to cooperate with the College authorities in insisting that the student exercise greater effort in his studies. One who fails in the mid-semester tests is liable to fail in the final examination.

At the conclusion of each semester, a final examina-

tion is given. The grades on this examination are placed on the permanent records and determine the scholastic standing of the student. The Registrar of the College forwards a copy of these grades to the parents of the students.

CLASS ADVISERS

In order to give guidance and direction to the student in the selection of his courses and fields of study, the President of the College has designated certain members of the faculty with whom the student may consult. Each student should always feel free to confer with the head of the department in which he is majoring, with the Dean, and the President. The following advisers have been chosen for the classes as indicated:

Freshman Class	Mrs. Sara Coolidge J. E. Judson
Sophomore Class	Nicholas Hyma R. C. Brown
Junior Class	L. H. Chrisman J. J. Bos
Senior Class	A. A. Schoolcraft G. L. Glauner

NOTATION OF COURSES

The following divisions are made in the general curriculum in respect to the numbering and classification of the courses.

101 to 199	Freshman Courses
201 to 299	Sophomore Courses
301 to 399	Junior Courses
401 to 499	Senior Courses

The odd numbers indicate courses given the first semester and even numbers indicate courses offered the second semester. Numbers separated by a hyphen

signify that the course must be taken the full year in order to realize credit for it. Numbers which are separated by a comma show that the course is offered during the entire year but credit is allowed for each semester. When a course that is offered the first semester is repeated the second semester, the letter "r" is added to the number of the course.

A student must have credit for the pre-requisites and the consent of the instructor before he may enroll in a course above his classification, and he must have consent of the Dean and the instructor in order to enroll in a class below his classification. One who enters with advance credit may select courses for which he has had the prerequisites, but as far as it is possible his courses must correspond with his classification. Students entering with two years of preparatory foreign language credit are required to enroll in courses numbered in the "200" group in order to continue study in that language.

In order to avoid confusion and possible injury to his college course the student is urged to enroll in subjects that fit his classification. That is, freshmen should enroll in the one hundred (100) group, sophomores in the two hundred (200) group, etc.

SCHOLASTIC RATING

Final grades are indicated by letters as follows:

A—indicates work of the highest quality.

B—represents a standing somewhat lower than "A" but of superior quality.

C—is the grade for average work.

D—indicates inferior work but passing.

E—represents a condition which signifies that the work was too poor to pass but not a failure.

F—shows that the work was entirely unsatisfactory and represents a failure.

If a student who has been making a passing grade and does not have a chance to complete his work on account of illness or any other prohibitive cause, his grade is recorded as "I" or incomplete. This work

must be completed during the next semester in which the student is enrolled, and the final grade is then entered on the permanent record.

Any one who, at the time of withdrawal from college, is doing passing work, is given a mark "WP" which signifies withdrew passing, but one who withdraws and is not passing is given "WF" which are the initial letters of withdrew failing.

In order to remove a condition the student must take a special examination. The permit to take this examination is secured from the Office of the Dean and must be done during the next semester in which the student is enrolled. The highest grade that may be given for the removal of a condition is "D".

EXPLANATION OF CREDITS

One hour of credits is based on the principle that the student has met his class once each week for eighteen weeks or one semester. Therefore, a class that meets twice each week during one semester is counted as two hours of credit, three times a week three hours credit, etc.

It is presupposed that two hours of preparation should be devoted to each recitation.

Laboratory periods last at least two hours. Credit for laboratory work counts the same as for preparation.

QUALITY POINTS

In order to qualify for graduation a student is required to have a minimum of 128 quality points. These credits depend on the grade one receives and are apportioned as follows:

A represents 3 points for each hour credit
B represents 2 points for each hour credit
C represents 1 point for each hour credit
D represents 0 points for each hour credit

Therefore, a student who makes a grade of "A" in

a course that counts three hours of credit will merit nine quality points in that course. It should be remembered that the grade "D" is counted as passing in hours but does not merit credit in quality points.

EXPLANATION OF HONORS

Honors are determined by the point index of the student. The point index is computed by dividing the total number of points earned by the total number of hours. Thus one who completes thirty-four hours in one year and has earned fifty-one quality points would have a point index of 1.5.

Class honors are awarded at the conclusion of the college year. The requirements for honors are as follows:

For freshmen a point index of.....2.25
For sophomores a point index of.....2.50
For juniors a point index of.....2.75
For seniors a point index of.....2.75

At the end of the college year two grades of honor may be conferred on members of the graduating class. A student who has maintained a point index during his entire college course of 2.50 shall graduate *Cum lauda*. One who has an average standing of 2.75 will receive the honor of *magna cum lauda*.

The member of the graduating class who has attained the highest scholastic standing in his college course shall be given valedictory honors. The one who has second highest standing shall have salutatory honors. Any student who has not been in regular attendance at West Virginia Wesleyan for at least three years will not be qualified for either of these honors.

Honors in scholarship shall be recorded on the diplomas of those who are entitled to them, printed on the commencement program, and recorded in the succeeding annual catalogue.

LOW RATING IN SCHOLARSHIP

Any student who does work below passing in one or more courses is reported to the Dean at the end of the semester. This matter will be taken up with the student with the purpose of ascertaining the reason for his low rating in scholarship.

One who receives grades that merit ten quality points in at least ten credit hours of academic work in one semester, will be permitted to continue his course without condition, but if less than ten hours and ten quality points are passed his name may be placed on a warned list.

A student whose name is on the warned list may be requested to discontinue his college course if he continues to fail in making a satisfactory standing in scholarship. One whose name is on the warned list may not represent the College in any athletic contest or in any other way as long as his academic record fails to show improvement to the extent that his name should be removed from this record.

CLASS STANDING

Freshman Standing—One is ranked as a freshman who has completed all entrance requirements.

Sophomore Standing—In order to be classified as a sophomore one must have satisfied all entrance requirements, completed at least twenty-four semester hours of college work, and merits twenty-four quality points.

Junior Standing—A student who has completed fifty-six semester hours and merits fifty-six quality points is ranked as a junior.

Senior Standing—One who has credit for eighty-eight semester hours and eighty-eight quality points will be enrolled as a senior.

ORGANIZATION OF COURSES

The courses of instruction are organized in departments. For the convenience of the student in selecting

fields for specialization the related departments are arranged in five divisions as follows:

I—DIVISION OF FINE ARTS

Art and Design	M	m
Music	M	m
Speech and Dramatics	M	m

II—DIVISION OF LANGUAGES AND LITERATURE

English	M	m
French	M	m
German	M	m

Business and Commerce	M	m

("M" means that a major is given in that department and "m" indicates that a minor is given.)

MAJOR AND MINORS

At or before the beginning of the junior year the student shall select his major field of study and two minor fields. It requires twenty-four hours of credit to complete a major and fifteen hours for a minor. A candidate for the Bachelor of Arts degree may select any one of the following subjects for his major:

Art
Biblical Literature
Economics and Sociology
Education
English
Foreign Language
History and Government
Music
Public Speaking

To qualify for the Bachelor of Science degree a candidate may select any one of the following subjects as a major:

Biological Sciences
Business and Commerce
Home Economics
Chemistry
Mathematics
Physical Education

DEGREES

West Virginia Wesleyan College confers two academic degrees, Bachelor of Arts, and Bachelor of Science. Definite requirements are herein specified with which a student must comply in order to qualify for the degree pursued.

REQUIREMENTS FOR GRADUATION

Semester Hours—In order to qualify for graduation a student must complete at least one hundred twenty-eight semester hours. The schedule is arranged to cover a period of four years of study.

Quality Points—It is required that an applicant for a degree must merit one hundred twenty-eight quality points. Therefore, he must average a grade of "C" in his scholastic standing.

Residence—A residence requirement of at least one year and thirty semester hours of credit are required.

Subjects—For the degree of Bachelor of Arts or Bachelor of Science the following subjects are required of all candidates:

Subjects	*Hours*
English Composition	6
Foreign Language	12
Psychology	3
Philosophy	3
History or Economics	6
Biblical Literature	6
Chemistry, Physics, Biology, Geology, or Mathematics	6
Public Speaking	4
Physical Education	4
A Major study	24
Two Minor studies (each)	15

Public Speaking and Physical Education should be completed during the first and second years in attendance.

Credit in foreign language is not required for college entrance. Not less than two years of work in any foreign language will be accepted as entrance credit.

A student entering with credit for two years of a foreign language may complete his requirement by taking one additional year in the same subject. A student entering without any credit in foreign language is required to complete at least two years in one language to satisfy the requirement.

RECOMMENDED CURRICULA

ART AND DESIGN

This course is outlined to cover a period of four years of study. By completing the outline the student will have finished a major in Art and Design. Those who select their major field in this subject are advised to choose their minor studies from English, Foreign Language, Home Economics or Social Science. Upon the completion of a major in this field the student may qualify for a teachers certificate.

A special certificate based on the completion of a two-year special course in Art is issued to qualify one to teach this subject.

BIBLICAL LITERATURE AND PHILOSOPHY

This course is outlined on the presupposition that the student has had at least two units of foreign language (preferably Latin) in high school. All ministerial students who plan to enter a graduate school of Theology are urged not to major in Biblical Literature. The major should be selected from the following: English or History, or Economics and Sociology. The minors should be selected from two remaining fields as Biblical Literature and Philosophy, Public Speaking, Foreign Language, and Physical Science.

BIOLOGY

For those who are preparing to teach the biological sciences this course is suggested. In order to qualify for certification, twenty hours in Education is required. Since this course has some similarity to the one outlined for pre-medical students, it should be held in mind that the purposes are altogether different.

CHEMISTRY

Students majoring in Chemistry should consult with

the head of the department concerning the industrial and commercial phase of this subject. With complete laboratories and equipment the field of Chemistry is well covered.

ENGLISH

Students majoring in this subject should consult the Head of the Department concerning subjects in which to minor. The course is primarily designed for students who expect to teach and those acquiring a general cultural course.

FOREIGN LANGUAGE

The course in Foreign Language is intended either to furnish one an opportunity to acquire a liberal arts education or to meet the qualifications to teach. Persons who expect to travel or study in foreign countries would do well to follow the course of studies as outlined. French, Spanish, German, or Latin may be pursued as a major or minor field of study.

Upon the completion of this course, the student may qualify for the five-year certificate.

In addition to a foreign language elected as a major it would be altogether admissible to select another language as one of the minors. Students taking work in this field with the intention of teaching, will be obliged to take twenty hours in Education during the junior and senior years. This is necessary in order to qualify for a teacher's certificate.

HISTORY

This course is designed for students preparing to teach History or to acquire a general cultural course. Those majoring in the Department of History should consult with the head of the Department in making a general outline for their college course.

HOME ECONOMICS

The courses in Home Economics are designed to help students develop the right standards of living. Courses that cover a study of foods and nutrition, the selection, construction and care of clothing and financial budgeting are offered. Those majoring in this field should consult with the Head of the Department for further instruction.

MATHEMATICS

Students majoring in the field of mathematics should consult with the Head of the Department in making a general outline of their work. The courses are designed primarily for those who are interested in the various branches of engineering, teaching, and general cultural information.

MUSIC

Courses are suggested leading to the degree of Bachelor of Arts with a major in Music. Students who are interested in the teaching of Music should take courses in Education in the place of electives in order to qualify for certification.

A major in Applied Music as violin, piano, voice, organ, or orchestra will be required to take private instruction. Those who are interested in taking work in this Department should consult with their instructors.

PHYSICAL EDUCATION

In order to comply with an increased demand for courses in Physical Education this College now provides that a student may elect a major in this field of study. It is advised that those majoring in Physical Education should minor in the physical sciences. Provision is made whereby the student specializing in this field may take courses in Education to satisfy the requirements for a certificate.

PUBLIC SPEAKING

This course is suggested for students who are interested in the teaching of Public Speaking, Dramatics, or in acquiring a general cultural course.

PROFESSIONAL COURSES

FOR STUDENTS PREPARING FOR THE PRACTICE OF DENTISTRY

Students interested in preparing for the practice of Dentistry should consult with the Dean of the College with respect to forming his outline of studies.

FOR STUDENTS PREPARING FOR THE PRACTICE OF MEDICINE

A degree granted by a standard college is required for entrance to some of our best medical schools. The course of studies outlined herein not only meet all requirements for entrance to medical colleges but satisfies the requirements for graduation with the degree of Bachelor of Science.

FOR STUDENTS PREPARING FOR THE PROFESSION OF ENGINEERING

A two-year course of studies has been designed for students who are looking forward toward the completion of a college course in engineering. Persons who are expecting to folllow this course should notify the Dean concerning their intentions in order that their schedule of studies may be adjusted. Entering upon the pre-engineering course is conditioned upon the student having completed all requirements for admission to college.

FOR STUDENTS PREPARING FOR THE PRACTICE OF LAW

Students expecting to study law should complete four years of academic training before starting on their professional course. This is already a requirement in many of our best colleges of law. By finishing the course herein specified the student will qualify for

the degree of Bachelor of Arts which includes all necessary preparatory work, and in addition he will have acquired a liberal arts education. This arrangement is fundamentally needful and strongly urged for those who desire to make the most thorough preparation to succeed.

FOR STUDENTS PREPARING FOR THE PRACTICE OF PHARMACY

There is a course suggested for students who desire to meet some of the requirements of pharmacy. All of this work will be accredited toward either the Bachelor of Science or the Bachelor of Arts degree. Consult with the Dean of the College with respect to forming an outline of studies in this course.

FOR STUDENTS PREPARING FOR THE STANDARD NORMAL CERTIFICATE

Students who complete this course are qualified for the standard normal certificate valid in all the elementary schools in West Virginia for five years. For an outline of studies, consult with the Head of the Department of Education who will design a complete outline of courses for the completion of the requirements for the Standard Normal Certificate.

FOR STUDENTS PREPARING FOR FOUR YEAR COLLEGIATE ELEMENTARY CERTIFICATE

This course of study meets all the requirements of the State Board of Education for a five-year collegiate certificate either as a teacher or principal in the elementary schools. It also meets the required twenty-four semester hours for a major in Education and of fifteen hours each for minors in English and Social Science in the College of Liberal Arts. The student who can offer three units (18 semester hours) of high school credit in foreign language should elect foreign language in his junior or senior years. The student who has had no foregin language must modify his

course of study so that he can begin his study of foreign language in the freshman year. The student must also elect three hours in Philosophy (preferably Logic) to meet the college graduation requirement.

By proper selection of courses a student may be able to complete his college course in two years after having completed the Standard Normal Course in two years. Students in the teacher training courses are urged to consult with the Dean and instructors in the Teacher Training Department.

III.—DIVISION OF BIBLICAL LITERATURE, PHILOSOPHY AND EDUCATION

Professor Brown, Professor Schoolcraft, Professor Blackburn

DEPARTMENT OF BIBLICAL LITERATURE AND PHILOSOPHY

Professor Brown

Statement of Purpose

The Bible records numerous aspects of world history so significant, and contains a literature so varied and rich, that without some knowledge of it no training in the liberal arts is complete. The purpose of the courses offered in Bible is to lead to an understanding and appreciation of the historical significance, the literary wealth, and the unique moral and religious value of the Hebrew and Christian scriptures.

The courses in Philosophy are designed to aid the student in acquiring a knowledge of the world views of the master minds of history, and of sound principles of thought and conduct, and in formulating for himself an adequate interpretation of the world and of man's place in it.

103, 104 BIBLE AS LITERATURE—A critical study of the literature of the Bible. The aim of this course is to enable the student to understand and appreciate Biblical literature.
MWF 7:45 3 Hrs.

301, 302 OLD TESTAMENT HISTORY AND LITERATURE—In this ocurse are studied the preparation for, and progress of, the Jewish race. The relation of the Hebrews to the other Semites will be carefully noted. The period between Malachi and John the Baptist will also be studied.
MWF 2:15 3 Hrs.

401, 402 THE SOCIAL INSTITUTIONS OF THE BIBLE—A genetic study of Hebrew society which affords the necessary background for a better understanding of the Prophets and of the Christ. A survey of the domestic, economic, political, and religious institutions of the Hebrews. The social teaching of Jesus will also be emphasized.
MWF 2:15 3 Hrs.

PHILOSOPHY

201, 202 HISTORY OF PHILOSOPHY—Historical study of the writings of the most significant philosophers, with attention to the continuity and development, treatment of the major philosophical problems.
MWF 8:45 3 Hrs.

203 INTRODUCTION TO PHILOSOPHY—The chief problems of philosophy are discussed, together with the solutions offered by different schools of thought. Intended to familiarize the student with philosophical methods and vocabulary.
MWF 1:15 3 Hrs.

204 THE PHILOSOPHY OF RELIGION—This course will follow Philosophy 203. A discussion of foundation principles of a theistic faith and related problems as personality, prayer, immortality, and the problem of evil. Pre-requisite, Psychology 103.
MWF 1:15 3 Hrs.

205 LOGIC—An examination of the thought processes involved in correct thinking, with emphasis upon their practical application.
MWF 1:15 3 Hrs.

206 ETHICS—A review of the principal doctrines of the various schools of ethical theory and their application to courrent moral problems of personal character and social relationships.
MWF 1:15 3 Hrs.

DEPARTMENT OF EDUCATION

DR. SCHOOLCRAFT AND DR. BLACKBURN

Statement of Purpose

The courses offered in the Department of Education provide all the professional training required of persons preparing to teach on either the elementary or secondary level in the public schools of West Virginia, and of all other states in which students may wish to qualify as teachers. It is the purpose of West Virginia Wesleyan College to offer the very best professional training for teaching in connection with the very best training in the subject matter to be taught, and the broad and rich cultural advantages of a Liberal Arts College. Unusually ample opportunities for directed observation and practice teaching are afforded in the public schools of Buckhannon.

SPECIAL NOTICE: The required courses of study for various certificates on different levels, and in different subjects, in West Virginia, not to mention other states, are so numerous and complex, and both the State requirements and the daily schedule of college courses are subject to such frequent revisions, that no attempt is made in this catalog to outline in detail courses of study for teachers in training. ALL STUDENTS IN THE FIELD OF EDUCATION SHOULD THROUGHOUT THEIR ENTIRE COURSE IN COLLEGE PLAN THE WORK OF EVERY SEMESTER

UNDER THE DIRECTION OF THE FACULTY OF EDUCATION.

DEPARTMENT OF EDUCATION

DR. SCHOOLCRAFT AND DR. BLACKBURN

101 INTRODUCTION TO EDUCATION—An orientation course in education. A general survey of the major problems in the field of education. Elective on elementary level. 2 Hrs.

103 INTRODUCTION TO EDUCATIONAL PSYCHOLOGY—An introduction to the principles of psychology, with attention to their relation to education. This course meets no requirement for certification, but is a highly desirable introduction to courses in Educational Psychology. It also constitutes a good introduction to courses in Philosophy. It is recommended to meet the requirement in psychology for graduation. 3 Hrs.

112 EDUCATIONAL PSYCHOLOGY—A basic study of original nature, principles and conditions of learning, how to study, transfer of training, individual differences, influence of environment, intelligence, conduct, tests. Required course in both elementary and secondary education. A prerequisite for most courses in Education. Fee $1.00. 3 Hrs.

205 PRINCIPLES OF LEARNING AND TEACHING—A survey of principles and methods in the elementary school. Prerequisite, Education 112. 5 Hrs.

208 SCHOOL MANAGEMENT AND ORGANIZATION—The elementary school-room situation is studied from the point of view of management. Organization, attendance, discipline, records, and

the various relationships of the teacher and pupils are among the topics considered. Required course on elementary level. 2 Hrs.

212 RURAL EDUCATION—An investigation of the problems peculiar to rural schools. Elective on elementary level. 2 Hrs.

235r DIRECTED TEACHING IN ELEMENTARY SCHOOL—Text, observations and reports, lesson plans, teaching under supervision, conferences, and class sessions. Open to Standard Normal students in sophomore year; to 4-year elementary students in senior year only. Prerequisites, Education 112. Education 205 must either precede or accompany this course. 5 Hrs.

304 TESTS AND STATISTICS—An introduction to the use of tests and statistics on both the elementary and secondary level. Practice in giving tests, and in the statistical and interpretative treatment of results, will constitute the main work of the course. Required on secondary level; elective on elementary level. Prerequisite, Education 112. Fee $1.00. 2 Hrs.

305 MATERIALS AND METHODS IN ENGLISH—A comprehensive survey of materials, selection and organization of materials, and approved methods. Required course on secondary level for those whose first teaching field is English. Elective for those whose second teaching field is English. 2 Hrs.

306 ADVANCED EDUCATIONAL PSYCHOLOGY—A study of the application of the principles of educational psychology to instruction, standards, guidance, and discipline in secondary education. Required course in secondary education for those who do not take Education 316. Prerequisite, Education 112. 2 Hrs.

307 MATERIALS AND METHODS IN BIOLOGY—A comprehensive survey of materials, selection and organization of materials, and approved methods. Required course on secondary level for those whose first teaching field is Biology. Elective for those whose second teaching field is Biology. 2 Hrs.

308 MATERIALS AND METHODS IN MATHEMATICS—A comprehensive survey of materials, selection and organization of materials, and approved methods. Required course on secondary level for those whose first teaching field is Mathematics. Elective for those whose second teaching field is Mathematics. 2 Hrs.

310 MATERIALS AND METHODS IN PHYSICAL AND GENERAL SCIENCE—A comprehensive survey of materials, selection and organization of materials, and approved methods. Required course on secondary level for those whose first teaching field is Physical and General Science. Elective for those whose teaching field is Physical and General Science. 2 Hrs.

311 MATERIALS AND METHODS IN FOREIGN LANGUAGES—A comprehensive survey of materials, selection and organization of materials, and approved methods. Required course on secondary level for those whose first teaching field is any Foreign Language. Elective for those whose second teaching field is any Foreign Language. 2 Hrs.

312 MATERIALS AND METHODS IN HOME ECONOMICS—A comprehensive survey of materials, selection and organization of materials, and approved methods. Required course on secondary level for those whose first teaching field is Home Economics. Elective for those whose second teaching field is Home Economics. 2 Hrs.

314 MATERIALS AND METHODS IN SOCIAL STUDIES—A comprehensive survey of materials, selection and organization of materials, and approved methods. Required course on secondary level for those whose first teaching field is Social Studies. Elective for those whose second teaching field is Social Studies. 2 Hrs.

315 PRINCIPLES OF TEACHING IN HIGH SCHOOLS—This course is intended to give the student of secondary education background for the study of specific methods. The basic functions of the high school, the curriculum, guidance, etc., are investigated. Current trends in secondary education are considered and evaluated. Required course. Prerequisite, Education 112. 3 Hrs.

316 PSYCHOLOGY OF ADOLESCENCE—An investigation of physical, mental, and social development during adolescence, and of their implications for education. Interests, motivation, personality, mental disturbances, mental hygiene, juvenile delinquency, and guidance are considered. Required course on secondary level. For those who do not take Education 306. Prerequisite, Education 112. 2 Hrs.

320 EDUCATIONAL SOCIOLOGY—A survey of the progressive and retarding forces in society, and of social needs. An analysis of the social functions of the school. Elective on secondary and 4-year elementary levels. 2 Hrs.

351 ELEMENTARY SCHOOL SUPERVISION — This course aims to make clear the function of the supervisor in the elementary school and to supply him with the knowledge necessary to make his work effective. Required course on the 4-year elementary level. 2 Hrs.

352 ELEMENTARY SCHOOL ADMINISTRATION —This course aims to make clear the function of the principal in the elementary school and to supply him with the knowledge necessary to make his work effective. Required course on the 4-year elementary level. 3 Hrs.

400 HISTORY OF EDUCATION—A comprehensive and critical survey of the history of educational theory and practice from the Renaissance to the present. Elective on both levels. 3 Hrs.

401 HIGH SCHOOL ORGANIZATION—This course deals with the organization of secondary education. The place of the high school in the public educational system, and the present status of secondary education in West Virginia are studied. 3 Hrs.

404 PHILOSOPHY OF EDUCATION—An attempt to formulate and evaluate the ultimate goals of education, and to state the ultimate reasons for education. Elective on the secondary and collegiate elementary levels. 3 Hrs.

405 DIRECTED TEACHING IN HIGH SCHOOL—Directed teaching in the student's major or minor field. Text, observations and reports, lesson plans, teaching under supervision, conferences, and class sessions. Open to seniors only. Prerequisites, Education courses 112, 304, 306 or 316, 315, and course in materials and methods in field in which student does his practice teaching. 3 Hrs.

IV.—DIVISION OF SCIENCE AND MATHEMATICS

PROFESSORS JUDSON, HYMA, HAUGHT, COOLIDGE, HALLAM, SIMONS, ROSS AND NASON

DEPARTMENT OF BIOLOGY

PROFESSOR JUDSON

Courses in this field are designed not only for the general cultural knowledge of all students, but also for those who expect to do advanced work in zoology, medicine, bacteriology, biochemistry, agriculture or botany. Opportunities for the appreciation of the work of the creator are pointed out in all classes. Preparation is made by competent students for work in medical clinics, city water and sanitary plants, biological research laboratories, government projects and agricultural experiment stations. Emphasis is placed upon preparation of students for biology teachers.

101, 102 PLANT AND ANIMAL BIOLOGY—Plant biology is given the first semester and with animal biology constitutes a year's work in general biology. The structure and physiology of plants and animals and their relation to environment are emphasized. A study is made of the fundamental principles of life in general, with particular reference to man. Elective for freshmen.

Laboratory fee $5.00

MW	8:45—Lab. T. T.	7:45- 9:45	
MW	2:15—Lab. T. T.	10:45-12:15	
	Lab. T. T.	1:45- 3:45	
			4 Hrs.

201 EVOLUTION AND HEREDITY—A review of the evidences of organic evolution. The last half of the semester will be concerned with the study of the laws of inheritance, the chromosomes, the

question of sex determination, and of the inheritance of somatic modifications. Prerequisite; General Biology or Chemistry.
MWF 11:45 3 Hrs.

202 EUGENICS—A study will be made of the sociological application of biological principles. Emphasis will be laid on the practical means by which society may encourage the reproduction of superior persons and discourage that of inferiors. Prerequisite, General Biology or General Chemistry.
MWF 11:15 3 Hrs.

207, 208 HUMAN PHYSIOLOGY—This course consists of a general consideration of the principles of physiology, with particular reference to man. Two classroom hours and two laboratory hours per week. General Biology is Prerequisite.
Laboratory fee $2.00.
TT 8:45 3 Hrs.

204 NATURE STUDY—Two hours lecture. Six hours field work or laboratory per week. A course of general interest which includes the identification and classification of local plants and animals. Some time will be taken with the other natural sciences. The lectures include the showing of many colored lantern slides of birds, flowers and animals. Laboratory fee, $2.00.
3 Hrs.

301 COMPARATIVE ANATOMY—The relationship between the different groups of vertebrates are considered by a detailed study and dissection of types of fishes, amphibia, reptiles, and animals. Given in alternate years.
Prerequisite, General Biology. Laboratory fee $7.
WF 7:45 4 Hrs.—Lab. 10:15-12:45
Lab. 1:15- 3:15

302 EMBRYOLOGY—A study is made of the production of germ cells, segmentation and development of the egg, and growth of the principle organs and tissues in typical vertebrates. General Biology in prerequisite. Given in alternate years.
WF 7:45 4 Hrs.—Lab. 10:15-12:15
Fee $7.00. Lab. 1:15- 3:15

307 BACTERIOLOGY—A foundation course for work in medicine, home economics and general culture. Training in bacteriological technique will be given in the laboratory. The yeasts, mold, and the relationship of microorganisms to health and to the preparation and preservation of foods will be studied. Four hours of laboratory and two hours of classroom work per week. General Biology or General Chemistry prerequisite. Given in alternate years. Fee $7.00.
WF 7:45 4 Hrs.—Lab. 10:15-12:15 TT
Lab. 1:15- 3:15 TT

308 DIAGNOSTIC BACTERIOLOGY—The object of this course is to teach the underlying principles of clinical and diagnostic bacteriological methods. A number of pathogenic bacteria are studied. Students are prepared for board of health work, technicians, physicians' assistants, and for the study of medicine. General Biology or General Chemistry prerequisite. Four hours laboratory and two hours classroom work. Given in alternate years. Fee $7.00.
WF 7:45 4 Hrs.—Lab. 10:15-12:15 TT
Lab. 1:15- 3:15 TT

407, 408 BIOLOGY CLUB—This will be given as a seminar course. The current biological literature will be discussed. Papers will be presented by members of the class upon biological topics of interest. General Biology prerequisite.
Th. 3:15 - 5:15 1 Hr.

DEPARTMENT OF CHEMISTRY

PROFESSOR HYMA

101-102 INORGANIC CHEMISTRY—The course is a study of the non-metallic elements, of their physical and chemical properties, the laws governing the chemical behavior of elements and compounds, valence, the ginetic molecular hypothesis, the atomic hypothesis, solution, molecular and atomic weights. Chemical equilibrium, dissocation in solution, ionization. Students are drilled in the solution of the mathematical problems in Chemistry. 4 Hrs.—Lab. T. T. 7:45- 9:45
MWF 8:45—Lab. T. T. 10:15-12:15
MWF 11:15—Lab. T. T. 1:15- 3:15
Lab. T. T. 2:15- 5:15
Laboratory fee, $8.00 each semester.

201-202 ORGANIC CHEMISTRY—This is a laboratory course with frequent lectures and conferences. In addition to chemical theory many important hydrocarbons and their derivatives are studied. Prerequisite courses 101-102.
Laboratory fee $15.00 each semester.
TT 8:45 4 Hrs. (Lab. 1:15 - 5:15)

203 QUALITATIVE ANALYSIS — A laboratory course with occasional lectures and conferences. The course is a study of acids, bases and salts, and the methods of detecting their several characteristic radicals.
Laboratory fee $8.00.
MWF 2:15 Hrs. (Lab. MWF 1:15-4:15)

204 QUALITATIVE ANALYSIS—Lecture and laboratory. Analysis of alloys, mineral, ores, etc. Prerequisite 101-102 and 203. Fee $8.00.
MWF 3 Hrs.

208 LABORATORY TECHNIQUE—For all students who intend to teach Chemistry. This course covers

the general methods of teaching first year Chemistry, including problems of beginning instruction, testing, teaching efficiency, proper use of written work, analysis of examination, preparation of all reagents and a detailed study of laboratory methods. Prerequisite 101-102.
TT 10:15 2 Hrs.

301 GRAVIMETRIC ANALYSIS — Lectures and Laboratory. Quantitative determination of pure chemicals and materials by gravimetric methods, including coal analysis. Prerequisite 101-102, and 203. Fee $8.00.
MWF 2:15 3 Hrs. (Lab. MWF 1:15-5:15)

302 VOLUMETRIC CHEMISTRY—This is a laboratory course with frequent lectures and conferences. In addition to chemical theory many important hydro-carbons and their derivatives are studied.
Prerequisite courses 101 and 102. Laboratory fee $8.00.
MWF 2:15 4 Hrs. (MWF 1:15-5:15)

401, 402 PHYSICAL CHEMISTRY—Lecture. Detailed study of liquids, solids, gases and theory of solutions. Prerequisite 101-102, 201-202, 203-204. Fee.
MWF 7:45 3 Hrs.

403, 403r WATER ANALYSIS—Two hours, either semester. Prerequisite courses 101 to 402.
Fee $8.00.
See Instructor. 3 Hrs.

405, 405r GAS ANALYSIS—Two hours, either semester. Prerequisite courses 101 to 402.
Fee $4.00.
See Instructor. 3 Hrs.

407, 407r FOOD ANALYSIS—Three hours, either semester. Prerequisite courses 101 to 402.

Fee $6.50.
See Instructor. 3 Hrs.

411, 411r ORGANIC PREPARATIONS—Three hours either semester. Prerequisite courses 101 to 402.
Fee $10.00.
See Instructor. 3 Hrs.

414 PHYSICAL CHEMISTRY — Laboratory only. Prerequisite courses 101 to 401 inclusive.
Fee $10.00.
M 1:15-5:15 3 Hrs.

416 THEORY OF ORGANIC CHEMISTRY 3 Hrs.

DEPARTMENT OF GEOLOGY AND GEOGRAPHY

PROFESSOR HAUGHT

101 GENERAL GEOLOGY—This course is a study of minerals, rocks, and structure of the earth including the agencies and processes producing structure-weathering, erosion, diastrophism, the work of streams, glaciers, winds, waves, volcanoes. The theory of the formation of coal, oil, gas, and other economic products is considered.
MWF 7:45 3 Hrs.

102 GENERAL GEOLOGY — HISTORICAL — The important objectives of this course are the geological time divisions, rock formation, and the correlation with these of their existing life species. Representative fossils will be examined, and field trips made.
MWF 7:45 3 Hrs.

107 COLLEGE GEOGRAPHY—The basic idea of this course is the relation of geography to human institutions, progress, and well-being. Climate, latitude, relief, winds, streams, plains, rainfall, minerals, barriers, soil, fisheries and other items en-

ter into the study of this relationship.
MWF 11:45 (Nor. Sch. St'd'ts.) 3 Hrs.

108 COLLEGE GEOGRAPHY — CLIMATOLOGY—This course is given to a special study of climate. It is logically developed from a consideration of the fundamental controls of climate — latitude, land and water, mountain barriers, altitude, prevailing winds, ocean currents and storms.
MWF 11:45 (Nor. Sch. St'd'ts.) 3 Hrs.

109 ECONOMIC GEOGRAPHY OF NORTH AMERICA—The objective of this course is a consideration of human economic activities in North America as related to climate, topography, soil, minerals, sources of power, and as affected by distribution of population and industrial activities.
MWF 8:45 3 Hrs.

110 PHYSICAL GEOGRAPHY—This course is an intensive study of the physical features of the earth, and of the influence of surficial features upon human social, political and economic trends of past and present time.
MWF 8:45 3 Hrs.

DEPARTMENT OF HOME ECONOMICS
MRS. COOLIDGE

Home Economics training is preparation for better living. This work is so planned that the girl is helped to understand her own capacities, to express her personality, and to develop the right standards of life. The nutrition value of foods, the selection, construction, and care of her clothes, budgeting her allowance, etiquette, and health habits are studied as basic knowledge for the girl in college as well as for the future.

101 CLOTHING SELECTION—Study of the principles of design applied to dress, the relation of color to individual problems in dress, and the se-

lection of materials and clothing according to their suitability and economic value. This course includes a study of historic costume.
MWF 7:45 3 Hrs.

102 CLOTHING CONSTRUCTION—This course includes practice in the use of commercial patterns, hand and machine sewing, applied to simple garments. Laboratory four hours a week.
Prerequisite Home Economics 101.
TT 7:45 2 Hrs.

201-202—FOODS AND COOKERY—This course is a study of staple foods including the production, the preparation of the foods for the table, and the principles of cookery involved. Practice is given to develop skill and efficiency in handling materials. Laboratory four hours a week. Parallel or prerequisite Chemistry 101, 102.
MWF 10:15 3 Hrs.

207-208 INTERIOR DECORATION—Study of the principles of design and color applied to problems in home furnishing; the relation of architecture to and a brief history of furniture.
TT 10:45 2 Hrs.

213 TEXTILES—This course is planned to give technical knowledge concerning textile materials, their names, prices, weaves, and uses; including the study of chemistry of fibers, bleaching, dyeing, tests for adulteration of fabrics, microscopic study of fibers and modern weaves. Prerequisite, Chemistry 101 and 102. Lecture two hours, laboratory two hours per week. Fee $2.00.
Not given 1934-35.
MWF 3 Hrs.

301-302 CHILD CARE AND NUTRITION—This course is a study of the development and care of the child, including physical and mental growth,

diet and clothing, diseases, habits and discipline. The second semester is devoted chiefly to laboratory work. Children are weighed and measured and the fundamental principles of developing strong, healthy bodies are worked out with the children. 2 Hrs.

312 ECONOMICS OF THE HOUSEHOLD — This course covers a history of the home, a study of living standards and the business of the home including rent, food, clothing, operating expenses, education, and the servant problem. Pre-requisite —Economics 201.
MWF 8:45 3 Hrs.

314 MECHANICS OF THE HOUSEHOLD—A survey of household equipment, its use, cost and care is made; problems in housekeeping and management are solved.
Not given 1934-35.
MWF 3 Hrs.

401, 402 CLOTHING CONSTRUCTION—This course in an extensive study and use of commercial patterns. Dresses, suits, and blouses will be made of silk and wool. The designing and draping of a dress is a part of the second semester's work. Laboratory four hours a week.
Prerequisite Home Economics 101, 102 and 213.
TT 1:15 2 Hrs.

407 DIETETICS—This is a detailed study of human nutrition including the chemistry of food, diets, digestion, factors which influence the individual's need for food, and the best foods. Lecture three hours and laboratory four hours a week. Fee $4.00.
Prerequisite—Home Economics 201 and 202.
MWF 11:15 3 Hrs.

408 MEAL PLANNING AND SERVING—The plan-

ning, purchasing, preparation, and serving of meals for the family, guests, and community affairs. Table etiquette and decoration are studied. Lecture two hours and laboratory four hours a week. Fee $5.00.
Prerequisite Home Economics 201 or 202. Not given 1934-35. 3 Hrs.

DEPARTMENT OF MATHEMATICS AND ASTRONOMY

Professor Hallam

The course of studies in this department has a threefold objective: To prepare the student majoring in Mathematics for entrance to the leading graduate schools to give the student of Engineering the necessary foundation; to develop in all students orderly and analytic methods of thought.

The major in Mathematics is required to complete courses in No. 301 and 302.

101 SOLID GEOMETRY—The usual theorems, constructions, a thorough study of solids and surfaces. Open to all who have had plane geometry.
MWF 3 Hrs.

102 COLLEGE GEOMETRY—A sequel to plane geometry. Further study of the line, circle, and triangle. Designed to give the necessary additional background to prospective teachers of high school mathematics.
MWF 3 Hrs.

103 COLLEGE ALGEBRA — A course in advanced Algebra including a study of determinants, progressions, permutations and combinations, probability, mathematical induction, functions and graphs, theory of equations, and logarithms.
MTWTF 8:45 4 Hrs.

104 TRIGONOMETRY—The study of the angle and triangle, the functions of an angle, line functions, trigonometric analysis, logarithms, applications.
MTWTF 8:45 4 Hrs.

201 ANALYTIC GEOMETRY—Application of algebra to geometry. Cartesian coordinates, curve tracing, conic sections, transformation of coordinates, polar coordinates, the line in space, quadratic surfaces.
MWF MTWF 1:15 4 Hrs.

202 DIFFERENTIAL CALCULUS — The idea of limits, instantaneous rates, differentiation of algebraic and transcendental functions, differentials, maxima and minima, points of inflections, indeterminate forms.
MTWF 1:15 4 Hrs.

207, 208 DESCRIPTIVE GEOMETRY—The use of the plane to represent lines, planes and surfaces in space, and related problems. Prerequisites, Plane and Solid Geometry.
MWF 2:15 3 Hrs.

209, 210 MECHANICAL DRAWING — Thorough practice in the use of instruments, lettering, various theories of projection, etc. The course serves as an introduction to Engineering Drawing and Architectural Drawing. (May be started either first or second semester).
MWF 3 Hrs.

213, 214 SURVEYING—Use of instruments, theory of surveying, computations of distances and areas, leveling, plotting. Hours are so arranged that good weather in autumn and spring are spent doing field work.
Time to be arranged.
MWF 3 Hrs.

220 ASTRONOMY—A descriptive study of the stars and their motion. Various theories of the origin of the planetary system are discussed. A small astronomical telescope is available for the use of the class.
MWF 11:15 3 Hrs.

301, 302 INTEGRAL CALCULUS—Integration as the inverse of differentiation, technique of integration, integration as a process of summation, multiple integrals, convergence, and divergence of infinite series, elementary differential equations.
3 Hrs.

401, 402 DIFFERENTIAL EQUATIONS—Ordinary and partial differential equations, applications, systems, integration by series. 3 Hrs.

407-408 PROJECTIVE GEOMETRY — Projective geometric forms and their relationships, and the projective generation and properties of conics.
MWF 10:15 3 Hrs.

PHYSICS

Professor Haught

College Physics is a cultural course for arts and science students with a predilection for work in this field. Students having medicine or engineering as their objective take the course to meet the requirements for entrance to medical college or for advanced standing in an engineering course. Prospective high-school teachers, qualifying in the field of physical science, take it and physical chemistry to meet the state's requirement. Freshman mathematics is a prerequisite and students expecting to take the course are advised to enroll for it in their sophomore year after completing algebra and trigonometry as freshmen. The course outline for the first and the second semesters is given below.

201 COLLEGE PHYSICS—*Mechanics,* measurement, matter and force moments and equilibrium, vectors, fluid pressure, Newton's laws of motion, kinetics of fluid, work and energy, rotary motion, harmonic motion. *Heat*-Thermometry, work and energy, change of state, heat engines, transference of heat.

MWF Lecture 10:15 5 Hrs.
Lab. 10:15-12:15

202 COLLEGE PHYSICS — *Magnetism.* Theory of terrestrial magnetism. *Electricity.* Static electricity, current electricity, chemical and magnetic effects of electricity, dynamos and motors, applications of electricity. *Sound.* Nature and transmission, properties of musical sounds. *Light.* Nature and propagation, image formation, color phenomena, interference, diffraction, the spectrum, polarization, electric discharges through gases, electrical radiations, radioactivity.

MWF Lecture 10:15
Lab. 10:15-12:15 5 Hrs.

COLLEGE PHYSICAL SCIENCE

PROFESSORS HAUGHT, HALLAM, JUDSON, HYMA

This course is arranged to meet the needs of students who desire a knowledge of the fundamentals of various branches of physical science and who have not the time to include a year of each of the individual sciences in their college training. It also serves as an orientation course for first year students.

For this course the college year is divided into four parts. Nine weeks are devoted to each of the departments: Astronomy and Mathematics; Physics; Chemistry; and Biology and Physiology.

No laboratory is given in this course. Instead of laboratory work a large number of demonstrations are given during the regular lectures. Classes will meet three hours each week: Monday, Wednesday, and Friday. Credit: Three hours. Demonstration fee: $5.00 per semester.

First nine weeks: Astronomy and Mathematics.
Prof. Hallam Metric system. The application

	of elementary mathematics to physical sciences. Sun, moon, and planetary system.
Second nine weeks: Dr. Haught	Department of Physics and Geology. Mechanics; energy; molecular physics; heat; sound; light; electricity. Elements of Geology.
Third nine weeks: Prof. Hyma	Department of Chemistry. Matter; elements; compounds; mixtures; chemical change; molecular hypothesis; atomic structure; metallurgy.
Fourth nine weeks: Dr. Judson	Department of Biology. Botany; zoology; elementary bacteriology; physiology.

Final examination on the department will come at the end of each nine weeks course.

NOTE: The present science requirement of the college is 8 hours. Credit for this course for one year is 6 hours. Would you approve a change from eight hours to six hours for the required work in science? This would make it possible for students who elect this course to complete their science requirement (six hours) in one year.

DEPARTMENT OF PHYSICAL EDUCATION

MR. SIMONS, MISS NASON AND COACH ROSS

This department seeks to provide equipment and a program that gives the individual and groups an opportunity for physical activity in situations that are "physically wholesome, mentally stimulating and satisfying, and socially sound." The program is so arranged that adequate exercise for hygienic reasons, an education in physical activity, and a "carry over" interest in athletic games, may be secured.

For those who wish to prepare for teaching in this field a major and minor in Physical Education in accordance with the requirement of West Virginia is offered. Valuable experience, also may be had through the well organized intercollegiate athletics of football, basketball, track, and tennis.

The department promotes a full founded program of intramural sports consisting of speedball, basketball, hockey, volley ball, baseball, track, tennis, swimming, handball and golf. The equipment facilities consist of a fully equipped gymnasium, handball court, swimming pool, one-fifth mile cinder track, football field, four tennis courts and a golf course.

COURSES FOR WOMEN

121-122—General Elementary Phys. Edu. for women	1 Hour
221-222—General Advanced Phys. Edu. for women	1 Hour
123—Hygiene (Personal)	2 Hours
306—Natural Dancing	1 Hour

MEN AND WOMEN

104—Health Education	2 Hours
203—Tumbling, Marching & Calisthenics, Postural Gymnastics	3 Hours
204—Aquatic Sports, Scouting, Camping and Hiking	3 Hours
301—Physiology	3 Hours
302—Kinesiology	3 Hours
303—Sports—Field Ball and Hockey, Basketball, Speedball, and Football	3 Hours
304—Sports—Archery and Tennis, Baseball and Track, Basketball and Volleyball	3 Hours
305—Folk Dancing and Clogging	1 Hour
403—Advanced Practice, Athletic Training & First Aid	3 Hours
404—Games, Playground and Community Recreation	3 Hours
405—Individual Gymnastics	2 Hours

COURSES FOR MEN

101-102—General Elementary Phys. Edu. for men	1 Hour
201-202—General Advanced Phys. Edu. for men	1 Hour
103—Hygiene for men	2 Hours

V.—DIVISION OF POLITICAL AND SOCIAL SCIENCES

PROFESSORS GLAUNER, KARICKHOFF, LAMBERT, AND MR. CARDER

This group of studies proposes to present a survey of the history, economic conditions and society of the human race. The courses in Economics take up the chief principles of the subject. Then attention is turned to labor, money, commerce and the history of their development. The collection and organization of data are considered important.

The purpose of the courses in History is to acquaint the student with the movements, organizations and the general activity of mankind from the earliest times up to the present. The study of Political Science correlates with that of History. Here we trace the political organizations of peoples and acquaint the student with the various forms, changes and characteristics of organized government.

Sociology emphasizes a study of the human race from a cultural standpoint and its social well-being. In this study also the evils resultant from crime, disease and maladjustment are presented to the student.

GENERAL INFORMATION

SUMMER SCHOOL

It is a regulation of West Virginia Wesleyan College to hold a summer session of nine weeks, of five days a week in addition to the regular academic year. The courses are usually conducted by the heads of the various departments, and when it is necessary to secure teaching help outside our own institution care is exercised to obtain efficient and highly trained instructors.

The importance of conducting our summer school is warranted by the following reasons: It affords an opportunity to students to shorten the time required to complete the work specified for a degree, permits a chance to students to remove deficiencies and thus not prolong the time required for finishing their courses, and makes it possible for teachers to carry on their work toward a degree and qualify for a higher certificate.

The summer school is regularly announced through a bulletin that is published about the first of February of each year. In this bulletin a detailed statement is made of the plans our College has provided for meeting the requirements for certification of teachers and for the advancement toward qualifying for a degree. A copy will be sent upon request. Address inquiries concerning the West Virginia Wesleyan Summer School to Director of the Summer School, Buckhannon, West Virginia.

BUREAU OF RECOMMENDATION

On account of having trained a great many young men and women for positions that require highly skilled labor Wesleyan College has often felt the need of an organization that would promote the opportunities of its graduates to secure worthy positions. In order to satisfy this need a Bureau of Recommendation was organized, and it is now a definite feature of the College.

It is the purpose of the Bureau to extend more valuable services to the alumni, and to cooperate with school officials in securing competent teachers. In addition to rendering help to those who make special preparation to engage in teaching, the organization may include other interests in the higher commercial and professional pursuits and thus, as far as we are able, make it possible for the graduates of Wesleyan to avail themselves of entering various fields of employment.

The enrollment of the members of the alumni who are candidates for positions as teachers, those who desire to be transferred to other localities, and those interested in other fields of employment is invited. We also invite the cooperation of boards of education and school superintendents that assistance may be rendered to them in securing capable teachers for their schools.

The Bureau is under the direction of the Dean of the College. No fee is imposed for registration.

FEES AND EXPENSES

TUITION: The regular tuition charge is $75.00 per semester. This entitles the student to carry sixteen hours exclusive of Physical Education. (There is no charge for Physical Education for full-time students).

Students who are allowed to take more than sixteen recitation hours will be charged at the rate of $5.00 per semester hour for all additional hours. All recitation hours under fifteen will be charged at the rate of $5.00 for each semester hour.

MATRICULATION: A matriculation fee of $5.00 is paid upon entering the College by all students excepting those whose work is exclusively in Music, Art, or Expression.

LIBRARY FEE: Every regularly enrolled stu-

dent will be charged a fee of fifty cents per semester to provide funds with which to purchase new books for the library.

LATE REGISTRATION: A fee of $5.00 will be charged for all late registrations unless special permission is given by the Dean for such late registration.

STUDENT ACTIVITIES FEE: This fee pays for tickets to all home varsity athletic games, lyceum course, and college paper. First semester—$5.50, second semester—$5.50.

OUT OF TOWN STUDENTS: The total charge for Tuition, Activity Fees, Matriculation, Room and Meals, for girls living in Agnes Howard Hall is $240.00 per semester. (This does not include laboratory fees, special courses or books). A discount of 5% is allowed if the total amount is paid at the time of enrollment. This reduces the cost to $228.00 per semester.

PAYMENT OF TUITION AND FEES: The following regulations were adopted by the Board of Trustees in June, 1933, and the Treasurer's Office will be governed accordingly:

REGULATION No. 1: All tuition and fees are payable in advance at the time of registration.

REGULATION No. 2: In case of extreme emergency, by application to the treasurer, arrangements may be made for monthly payments, which shall be due and payable on the first day of each month. Notes with good security shall be required for deferred payments, but shall not extend in time beyond the close of the semester. Failure to pay any installment on the due date shall cause the entire note to become due and payable and if such failure to pay shall continue for a period of fifteen days, class privileges shall be denied the student whose note is in default.

REGULATION No. 3: All accounts must be paid in cash before credits are available, a diploma granted, or a transfer of credits made, or an application to the State Board of Education filed.

REFUNDS: Tuition and fees are not returnable except when the withdrawal is caused by sickness or causes which, in the judgment of the college authorities, are entirely beyond the control of the student.

It is necessary for the student to submit to the Dean notice of his withdrawal at the date of such withdrawal. Students withdrawing under discipline forfeit all claim to any refund. Special or laboratory fees are not subject to refund.

WESLEYAN BOOK STORE: Students should be prepared to pay cash for books and supplies as no system for charge accounts is maintained in this department. This rule has always been in effect, but a few students have come unprepared to pay for their books. Please observe this regulation in order to save confusion.

BOY'S DORMITORY: Students living in this dormitory are responsible to the college for their tuition, fees, etc., only, and should pay their room and board bills to the lady in charge.

STUDENT AID AND SCHOLARSHIPS

METHODIST LOAN FUND

A limited number of needy Methodist students may secure loans from the Student Loan Fund administered by the Board of Education of the Methodist Episcopal Church. This fund has been built up by the annual Children's Day offerings of the Sunday Schools and the amounts made available by returned loans. A student who borrows, signs an interest-bearing promissory note, obligating him to full and prompt repayment. Christian character, satisfactory scholarship, promise of usefulness, financial responsibility and the recommendation of the church to which he belongs are required of an applicant. Application for these loans must be made through the College Treasurer within two weeks after the opening of the semester.

WESLEYAN STUDENT LOAN BOARD

At the June 1927 meeting of the College Board, permission was given to the West Virginia Wesleyan Alumni Association to organize a student loan board to be known as the Wesleyan Student Loan Board, Inc.

The organization was completed and in due time incorporated under the laws of the state of West Virginia. The directors are chosen as follows: Two from the alumni, one from the College Board, and two at large. The board is composed of Myron B. Hymes, Chairman, U. G. Young, Vice-Chairman, A. A. Aylesworth, Secretary-Treasurer, Ronald Moist and Dr. Jesse F. Williams.

Funds are loaned on a plan similar to the Methodist Student Loan Board. All borrowers are required to sign an interest-bearing promissory note. Application blanks for these loans can be secured at the College Treasurer's office.

SCHOLARSHIPS

In recognition of high scholastic standing and a true ambition to attain a college education the Alumni and friends of the College have provided a number of scholarships. The average value of a scholarship is $60.00 annually, one-half of which is to be applied each semester toward the payment of tuition and fees. It is the custom of the College to make these awards in accordance with the desire of the donors when there is an expression in this particular.

Scholarships are awarded for one school year only. A candidate for one of these awards should not have any deficiencies standing against his record. Any student who fails to maintain a passing average during the first semester is liable to lose the benefit of his scholarship for the rest of the year. It is expected that the holder of a scholarship carry a study program of at least fifteen hours of credit.

Applications should be made to the Dean of the College, on forms furnished from his office. The applications should be filed not later than September 1.

HIGH SCHOOL SCHOLARSHIPS

The Board of Trustees of West Virginia Wesleyan College has directed the Administration to offer *prize scholarships* of seventy-five dollars each to one student, boy or girl, in every first class high school in West Virginia. The *prize* will be given as an incentive to good scholarship, and as a means of acquainting the youth of our state with the character of work done by the college.

The following rules govern the award of the prize scholarship.

RULE 1

The Seventy-five dollar Scholarship provided by the Board of Trustees to be awarded each year, shall be made to one student of each first-class high school in the State of West Virginia, graduating at the commencement immediately preceding the college year of which such scholarship is to be given.

RULE 2

The principal of each first-class high school shall designate and report to the President of the College the four graduates of such high school who are highest in standing, based upon their average grades in scholarship for the tenth, eleventh and twelfth year's work and upon their character and general promise, and which of those so designated are willing to accept such scholarship.

RULE 3

The award of such a scholarship shall be made by the President of the College to the highest ranking graduate of the four so recommended who is willing to accept such scholarship. Whenever practical, the award of such scholarship shall be announced as a part of the commencement program.

The student selected from any high school will receive from the college a Scholarship Certificate signed by the President, which upon presentation at the Treasurer's office, will be credited on tuition.

STUDENT ORGANIZATIONS AND ACTIVITIES

THE WESLEYAN PLAY SHOP

The purpose of the Wesleyan Play Shop, Wesleyan's dramatic club, with a membership of fifty persons, is to study and present the best modern plays in a finished and artistic manner.

The club meets semi-monthly and at each meeting a play is reviewed and discussed. Criticisms from the Theatre Magazine, the Drama, and the Theatre Arts Monthly are read, and reports are given as to the work of other collegiate clubs.

PUBLICATIONS

The students publish the Pharos, a weekly newspaper, which chronicles the college events and affords a medium for essays, orations, and the expression of students' opinion. The College Bulletin is published at frequent intervals, and sent without charge to all who request it.

LECTURES AND ENTERTAINMENTS

The Student Council maintains a lecture course of four or five numbers each year. The best available talent is secured and during one's college years he has an opportunity to hear the leading scholars, orators, and musicians of the country.

During the year the students of the School of Music and Oratory offer several concerts, recitals, and enter-

tainments of superior value not only to students in these departments, but to all others.

MUSICAL ORGANIZATIONS

The Wesleyan Choir is open to all who can pass the competitive examination. It takes part in the Chapel exercises of the College frequently and at Commencement and other special occasions, as well as to offer programs in cities adjacent to Buckhannon. One hour's credit per semester is now allowed for participation in the work of the College Choir.

THE BENZINE RING

This is the Chemical Society of West Virginia Wesleyan College. Membership is open to students who have completed courses 1 and 2. Meetings are held the first and third Wednesdays of the month during the school year, 7:15 p. m. Special subjects of interest to the student who majors in chemistry are considered; special lectures and demonstrations; visits to industrial centers.

PI KAPPA DELTA

At the national convention of Pi Kappa Delta, an honorary forensic fraternity, held at Tiffin, Ohio, April 3-5, 1928, the application of Wesleyan's Forensic Club for a chapter in this organization was granted. In May, 1928, the West Virginia Alpha Chapter was installed by national officers of the fraternity. This installation marked the passing of the Forensic Club and all its members immediately became members of Pi Kappa Delta. West Virginia Alpha sponsors the debating and oratory programs of Wesleyan. By the conferring of a key, the emblem of the chapter, the debaters and orators are rewarded for their efforts. The stimulating effect of the presence of this national fraternity is being perceived at this early date in the increased interest in forensics among the students.

FRATERNITIES AND SORORITIES

Following an enabling resolution of the Board of Trustees passed in June, 1925, two fraternities, the Kappa Alpha and Alpha Kappa Pi; and three sororities, The Sigma Delta Chi, Sigma Pi Delta, and Kappa Phi Omega, have effectively organized.

STUDENT GOVERNMENT

In the academic year 1922-23 a start in the direction of student government was made by the organization of a Student Council, with power to advise with the Faculty in matters relating to student customs and conduct. The College delegates to the student body authority to advise and enforce regulations in all matters pertaining to (1) the aesthetic care of buildings, (2) campus manners and etiquette, and (3) integrity in class room preparation and examinations.

ATHLETICS

A sound body is essential to the highest efficiency in scholarship, and athletic exercise has a proper place in college life. General athletics are under the control of the faculty committee of athletics. An unexcelled athletic field accords opportunity for all outdoor sports, and several tennis courts are conveniently located on the campus. The gymnasium is so arranged as to be of equal service to both men and women. Proper baseball, track and tennis athletics. Each year strong and successful teams have been maintained, while at the same time quite an extensive intramural program has been carried on.

ATHLETIC ELIGIBILITY RULES

1. Each member of any team must carry at least fourteen semester hours work, none of which is a repetition of work for which he has credit either here or elsewhere.

2. No student who shall engage or has engaged in any athletic contest as a member of a recognized professional team shall be eligible to represent Wesleyan in any intercollegiate sport.

3. No new student shall be eligible to play on the varsity football team who the previous year played on the varsity team of any college with a male enrollment of one hundred and fifty.

4. No student shall participate in any branch of intercollegiate athletics for more than four years.

5. No student shall play in a match game who has not enrolled within two weeks after the opening of the term.

6. No student may participate in intercollegiate contests who is failing to maintain a satisfactory scholastic record.

7. No student shall be eligible to represent Wesleyan College in any match games with members of the West Virginia Athletic Conference until said student has complied with the eligibility rules of both Wesleyan College and the West Virginia Athletic Conference.

ATTENDANCE

Prompt and regular attendance at class and chapel exercises is required. The student is responsible for attendance at all sessions of classes in which he is registered.

Instructors are required to report to the Dean all students whose absences in any course totals one more than the recitations per week in that course. The student will be required to take, at a specified time, a special examination. This rule applies in all cases excepting when absences are due to membership in organizations recognized as representing the College.

The customary fee of $1.00 is charged for the special examination.

The instructor who is in control of the particular

activity concerned shall secure a signed approval of the Dean to a list of all students whose absence he requests, at least twenty-four hours before any absence is incurred.

A student may have six unexcused absences from chapel. When the total exceeds that number, and for each succeeding offense, one hour shall be deducted from the total number of credits received during the semester in which the absences occurred. Absences from chapel incurred on account of prolonged illness will receive due consideration.

No absence is excusable excepting those of students who may be granted permission in advance by the Dean to represent the College in some public exercise.
